Updated COP-RCORP Project Timeline

Hold off on the Workforce part of the Needs Assessment for now!

HRSA Requirements for Strategic Plans

1. Address the gaps in the opioid use disorder (OUD) prevention, treatment (including MAT), and/or recovery services, as well as access to care identified in the analysis.
2. Incorporate evidence-based, promising, and innovative approaches proven to reduce the morbidity and mortality associated with opioid overdose in rural communities.
3. Ensure affordability of and accessibility to services for target populations.
4. Detail plans to leverage existing federal, state, and local OUD resources and secure community support.
5. Provide specific strategies for implementing evidence-based, promising, and innovative practices after the project year ends.
6. Develop strategies to eliminate or reduce costs of treatment for uninsured and underinsured patients.

RCORP-P Strategic Planning

- (Federal: HRSA) RCORP-P Strategic Plan should flow from the RCORP-P Needs Assessment.
